After School Enrichment Classes

3:30pm dismissal in the circle

Kindergarten Prep Programs
Ages 3-5

Creative Arts Programs
Ages 2-5

Handwriting Without Tears

Handwriting & Fine Motor Program

Children who master handwriting are better, more creative writers. The earlier we teach children to master handwriting, the more likely they are to succeed in school, and write with speed and ease in all subjects. We use fun, engaging, and developmentally appropriate instructional methods to enable children to master handwriting as an automatic and comfortable skill.

Monday

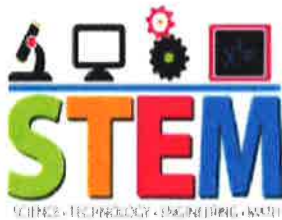

Thursday

Children learn about different artists as they gleefully create their own masterpieces using a wide range of quality art materials. This class will develop skills important for school success such as fine motor skills, language, cognitive skills and the ability to listen and follow directions in our enchanting environment.

Friday

Classes include various styles of music through sing-a-longs, chanting, large and small movement activities, dancing, marches, tonal and rhythm patterns, finger plays, and instrument play. Embrace yourself for a fun, educational, and musical experience.

Science, Technology, Engineering, & Math

STEM is a curriculum based on the idea of educating students in four specific disciplines — science, technology, engineering and mathematics — in an interdisciplinary and applied approach. Rather than teach the four disciplines as separate and discrete subjects, STEM integrates them into a cohesive learning paradigm based on real-world applications.

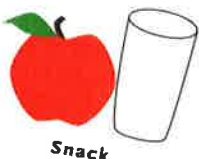

Tuesday

Advanced Kindergarten Preparation Program

This program is designed to ensure that children start school confident, secure, and eager to learn more. Each child will receive a developmental assessment that will be used by a master's level child development educator to create a curriculum that is individually customized to enrich your child's transition from preschool to kindergarten.

Wednesday

**Snack will be provided*

Enrichment Enrollment

Each program runs for 10 months, September 2018- June 2019,
